

Teaching in a 21st Century School

Madeira Island – Portugal

This course contains 40 hours of guided tuition over 6 days (*). Below is the proposed Agenda for the course in [Madeira Island](#).

The course is held mostly at the [Teachers Training Division of Regional Directorate of Education](#) , but participants will have the opportunity to visit other schools/institutions.

Target group: kindergarten teachers, pre-school teachers, primary teachers, secondary teachers, headmasters, deputy heads, future head teachers, trainers, councilors, researchers, politicians and others stakeholders.

Language used for the training: English

February 2020

Description: The course has been designed to provide tools to prepare European teachers for a future that happens today. The topics and training activities take into account the Key Competences for 21st Century Students. The course is designed to be very practical, demonstrative and interactive. The trainers are enthusiastic educational agents, namely teachers with a broad experience and actively involved in 21st Century Skills.

Course Objectives:

- Promote the debate about Key Competences for 21st Century Citizens;
- Experiment and develop new learning practices and teaching methods;
- Promote educational innovation and stimulating the use of ICT in schools;
- Promoting interdisciplinary through STEAM (Science, Technology, Engineering, Arts and Mathematics);
- Develop methodologies, strategies, techniques and resources for a differentiated teaching;
- Create spin-off effects like curriculum development and research collaboration;
- Improve educational practices through collaborative working approaches among teachers;
- Promote a deeper understanding of the practical ways of incorporating eTwinning in teaching;
- Improve the quality and efficacy of the management of international projects;
- Increase knowledge of social, linguistic and cultural issues.
